BATTLE AT MONTERBY!

nal, in conjunction, yesterday evening, we are indebted for the news which follows:

From the Union. Very Interesting News from Gen. Tay-

lor's Camp. This evening's southern mail brings us some deeply interesting and thrilling news from our gallant army. We lay before our readers at once all the copious details which have reached us in the extra Picayune of this day week (Sunday.) Of course we cannot vouch for the entire accuracy of these statements.

In addition to the information thus received, we have had the pleasure of seeing Capt. Eaton, who has brought despatches from Gen. Taylor to the War Department. Capt. Eaton left our camp at Monterey on the evening of the 25th of September. He deserves great credit for the alacrity and energy which he has exhibited in reaching Washington from Monterey in

We have no time for further comment to-night. Our army has again covered itself with glory. It has driven the Mexicans from their strong entrenchments, on very precipitous heights, on both sides of the Rio del Tigre-storming them in the face of the enemy and their gons-beating an army of double their own force, as has been estimated, and after four days' fighting, and driving the enemy from one entrenchment after another, and from street to street, compelling them to surrender Monterey with all its supplies of ammunition, provision, &c., and cannon, with a the offer of the American General. very small exception. Neither army is to pass a specified line-which is perhaps nearly half way between Monterey and Saltillo-under eight weeks. But this armistice, in the first place, does not embrace our other lines of operations; and, secondly, it is subject, in express terms, to the orders and instructions of the two governments. The army is worthy of all praise for the gallantry and skill which have been displayed by our officers and troops, both volunteers and regulars. This is another brilliant military event in the annals of our country

But, in obtaining this glorious victory, we have lost many a noble officer and gallant soldier. The hearts of their countrymen are filled with the deepest gratitude for the heroic services of these brave men who have thus given their lives to the cause of their country; and the whole nation profoundly sympathises with their bereaved families and friends. We must reserve, until to-morrow, the official de-

tails of this brilliant achievement. From the N. O. Picayune, Extra, Oct. 4.

News from the Army.

Histy memoranda of the operations of the American Army before Monterey, Mexico, from the 19th to

the 24th September. On the 19th Gen. Taylor arrived before Monterey with a force of about 6000 men, and after reconnot tering the city at about 1 500 or 1,600 yards from the Cathedral fort, during which he was fired upon from its batteries his force was encamped at the Walnut corings, three miles short of the city. This was the nearest position at which the army could obtain a supply of water, and be beyond the reach of the enemy's batteries. The remainder of the 19th was occupied by the engineers in making reconnoisances of the city, batteries, and commanding heights. On the 20th, Gen. Worth was ordered with his division to move by a circuitous route to the right, to gain the Saltillo roud beyond the west of the town, and to storm the heights above Bishop's Palace, which vital point the enemy appear to have strangely neglected. Circumstances caused his halt on the night of the

20th, short of the intended position.

On the morning of the 21st he continued his route, and after an encounter with a large body of the enemy's cavalry and infantry, supported by artillery from the heights, he repulsed them with loss, and finally encamped covering the passage of the Saltillo road. It was here discovered that besides the fort at the Bishop's Palace, and the occupation of the heights above it, two forts on commanding eminences on the opposite side of the Juan had been fortified and occu-Twiggs, and the volunteer division under General Butler, were ordered under arms to make a diversion to the left of the town, in favor of the important operations under Gen. Worth.
